**MEETING NUTRI-WEST/ DR. BRIMHALL 4 YEARS AGO
CHANGED MY LIFE AND TRIPLED MY PRACTICE AND INCOME**

December 29, 2008

By Dr. Robert Ornelas

Dear Dr. John,

I met both you and Dr. Brett four years ago at the Parker seminar in Las Vegas. I had no idea where this was going to take me. I was so impressed with the nutrition testing, laser, adjustor, and percussor that I bought ALL OF THEM, including the Nutri-West Test Kit on the spot. Then Sunday night I watched the video on the laser over and over, and on Monday we started to practice wellness (at least I thought I was). Since then it has been an incredible journey. I followed you around to learn, learn, and learn. I had no idea how to do AK, nutritional testing, or emotional work; but after many seminars I am comfortable with all of the protocol. That's why it's so important to attend the Nutri-West/Brimhall Seminars. Since then my journey has been incredible. Dr. Anderson has been very instrumental in helping me understand and learn nutrition. He was very patient with me even after I inundated him with many emails. THANKS DR. ANDERSON for helping me implement the NUTRI-WEST

nutrition and the entire Protocol into practice.

By implementing Nutri-West nutrition and Dr. Brimhall's Six Steps to Wellness program, we have helped many patients achieve better health and a more enjoyable lifestyle. During the last four years patients have often commented that they feel great on the inside. They would then ask if there is anything to help them look as good as they feel? My normal response was diet and exercise. We all know that ends up very limited in their ability to change their lifestyle long-term. So when Erchonia came out with the Zerona Lipo Laser, I had to get it. The following is our protocol and responses:

A Total Health Scan is performed on every patient and Nutri-West nutrition is started at least one week prior to the Zerona Lipo Laser protocol. In addition to the tested nutrition, one tablet of B6 Niacin and 500 mg L-Carnitine is included. It is very important that the thyroid is functioning correctly, so test for it. Add Total Thyroid if it tests positive and test for iodine by muscle testing or Labrix Saliva test as well.

After each 40 minute lipo laser session, a 23 minute foot bath is accomplished. We concentrate the laser application depending where the patient wants to lose inches. We include three areas of measurements. Patients can utilize the Zerona daily but no more than a two day break between treatments.

The Zerona Laser emulsifies the fat and pushes it into the lymphatic and digestive system. This is why nutrition and the foot bath are mandatory to achieve adequate results. The Zerona helps the patient lose inches. This is a great kick start for better health and a healthier lifestyle.

The first female patient lost a total of five and a half inches in six visits and the second female patient lost a total of seven inches in ten visits and lost five pounds. In addition to her supplements she took Total Greens three times per day for three days then once per day. I lost three inches (one area) around my stomach in six visits.

Two more female patients have had three sessions and are already seeing results. The Zerona Laser also works great for those dark bags under the eyes. Three 90 second treatments usually take care of this. It can also reduce the appearance of

If you use laser this presentation is not even optional, it is a must. If you don't and hear his presentation, I think you soon will be doing LLL or low level laser.
