Ultimate Wellness Web Sites... BRIMHALL CERTIFIED Not Just a Web Site It's a Complete Service Package ORDER TODAY

The Whole Enchilada at one Homecoming Picnic!
(Continued)

HOMECOMING 07 was by far the best yet. The new **Wellness Assessment Questionnaire** and the **Laboratory Interpretation Service** for Blood, Urine, Saliva, & Toxicology Analysis were covered to the max, with total acceptance. These are offered as a new dynamic web based service to you even if you missed homecoming.

At Homecoming these specific diagnostic tools were made available with a Nutri-West / Brimhall special, one-time reduced price of only 60 per month of unlimited use! You can still take advantage of these practice building tools and choose to pay only $10 per patient report or you can choose unlimited #'s of patients evaluated per month at only $99.00 per month.

The **"Wellness Assessment Questionnaire"** is a diagnostic questionnaire that could very well be one of the most important tools available for you and for your patients!

Doctor, as you know, in today's fast paced world, most people are concerned about their health! The message is clear – Your patients want to be healthy! Every patient that comes into your office is concerned about their own health. The questionnaire helps them and you pin-point the areas of concern.

For the "Baby-Boomers" they do not want to be like their parents. They choose to be healthy! They are looking for someone to give them answers that they can employ to be healthy and stay healthy!

The "Generation X" group does not want to get sick. They are choosing to stay ahead of the wellness model by doing what ever it takes to stay on the edge of health and wellness!

This is a major health trend that will last for the next 25-40 years. As Wellness Doctors, we are in the right place at the right time! If we use the right diagnostic tools and treatment protocols, with the correct Nutri-West Nutrition, we can know how to help the patients that seek our care!

As you probably already know, there are many different types of questionnaires out there, and for most doctors, this is very frustrating.

- Which one do you use?
- Which one can you have absolute confidence in?
- Which one will help identify exactly what is wrong with your patients?
- Will any of them be proactive and identify what is developing in your patients?

- How many products do you have to stock for that questionnaire?
- Is there a questionnaire that can find out what a patient needs to help correct their problems?
- Is it repeatable and able to cross reference previous test?

As we evaluated what is currently available, we could not find a questionnaire that was specific to our needs in the Brimhall Protocol wellness model. Therefore, we chose to create a questionnaire that allows us to identify what is dysfunctional in the patient by evaluating the review of systems arena, and correlating it back to multiple symptoms of all the systems.

Currently we have taken the 14 major systems of the body and broken them down into 81 different sub-categories and matched them against 50 of the most common symptoms or ailments presenting in our offices today!

This service also has a "General" category questionnaire that can be used on every patient. It consists of less than 200 questions and will evaluate and cross link all of the 81 major sub-category systems to detect what is happening in the patient. It will identify what is currently developing in your patients and make the specific Nutri-West product recommendations to help them correct and regain their optimal health!

There is not another Questionnaire or Lab Interpretation service like these in existence today! This is a way to increase your service, increase your results and your profitability.

The new **Wellness Assessment Questionnaire** and the **Laboratory Interpretation Service** for Blood, Urine, Saliva, & Toxicology Analysis are diagnostic tools that could be responsible for helping patients around the world become healthier and more vibrant in their life! This truly does help us get our patients on the optimal path to health and wellness! We invite you to join us as we endeavor to help change health care around the world!

If we missed you at Homecoming 2007, call our office for details at 866- 338- 4883!
