## A Miracle With The Brimhall Protocol and Laser

This weeks Health Puzzle Piece is provided by one of our certified doctors who shares a personal heart wrenching experience. We thank Dr. Marucci for sharing his experience and hope that our readers can benefit.

---

Dr Brimhall,

I just got back from the hospital. I must share our experience.

Tonight I was driving back to my home from my office thinking how wonderful everything was and reflecting on the idea of duality as you explained it at one of the Nutri-West / Brimhall seminars. I will never forget that feeling.

When I arrived at home my wife Maria, my sons Santino & Gianni and daughter Maya were waiting for me. We sat down for dinner and began to talk. My son Santino had just passed his green belt test and earned a trophy and he was describing it. Both my wife and I were paying attention to his story when my son (14 months) Gianni kicked himself back from the table with his booster chair strapped to a dinner chair. The chair went backwards and the first thing we heard was the crash. My wife and I jumped to pick him up and she immediately said he didn't feel right, as his energy was gone and we needed to go to the ER.

This was the first time in over a year I left my derma laser at my office. We called the girl next door to watch over our two children as we ran to the car. The ER is only about 2 miles from our home. I pulled into the ER and Maria jumped out with the baby and I left to get the laser, as my office is only about another mile and a half from there. I got the laser from my office and was on the way back to the ER. I called my wife and told her I was on the way back. She was crying and said Gianni was vomiting and to please hurry. I got there, parked and found them in the pediatric ER waiting room, Gianni was listless and his eyes were not bright.

I lasered his brain, cerebellum, neck and back for about 10 minutes while we were waiting there. I wouldn't believe it unless I saw it myself. His eyes immediately came back and were bright. He became active and alert. He wanted to play with the toys in the waiting room and was the most active child in the hospital. We waited, saw the Doc, and were discharged. My wife said, "you better email Dr. Brimhall and thank him right away".

I guess that answers my question about giving up the portability of the derma laser for a base station. If anyone wants to know if the laser is worth the price have them call me, tonight was worth the entire cost.

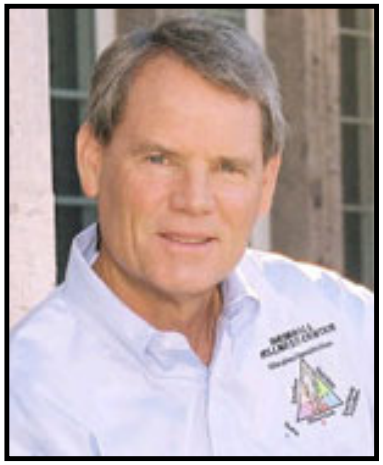
I remember writing a letter after going to your Orlando seminar last year. I just wanted to tell you that bringing my entire staff to Orlando for your seminar was the single best decision I made in 2006. The entire staff came back charged up and on point. I immediately threw them in to start testing patients and treating both patients and each other with your protocol. We all felt a huge difference in our office energy Monday morning, as did our patients.

Doing that couples integration for our office team was worth the price of the weekend 10 fold. We are having so much fun in the office, the staff really gets it, where before I was doing one thing and everyone else was doing something else.

Again, from the bottom of my families hearts, thank you and God Bless you.

Forever your friend,
Jason Marucci

---



Thanks to Dr. Marucci and all of you that share your experiences and the miracles you see daily. Please be aware you can use Nutri-West's EEP drops in an emergency and it acts like a rescue remedy. Give Total Brain after an injury and test for Total Mitochondria. Also test for nutrition e.g. as Total Virx, Multimune or Bac-t to reduce the chance of secondary infection.

Dr. Brett take's the Violet/Red laser from his Base Station home many nights. He sets it on the linear mode form 1 to 60, which covers all brain frequency and has wonderful results. Don't be fooled about the portability of the Base Station's individual units. They work very well and run for hours without being recharged or changing the frequencies when using the linear or non-linear settings.

The best to You and Yours!
