PATIENTS EXPERIENCE MIRACLES - BRIMHALL PROTOCOL

This weeks Health Puzzle Piece is provided by Dr. Jesse Liebman who shares his miracle results from the use of the Brimhall Protocol.

History

A famous N.F.L. player is referred to my office by a local gym owner. The gym owner says that his athlete friend has severe back and rib pain and nobody can figure out where it is coming from, including the team orthopedist and neurologist. Patient history indicated the pain as lower thoracic pain, left sided, over toward the rib cage. It caused the patient to be leaning in an antalgic position.

Treatment

STEP 1

I adjusted the lumbar spine with the Adjustor instrument while my assistant held the violet laser on the spine covering sacrum up to the base of the skull. I also adjusted some anterior thoracic subluxations.

STEP 2

Fascial restrictions were found over the coccyx, L3, and left femur head . So the percussor was applied to those areas while my assistant lasered the same points.

STEP 3

With the patient supine I cleared a category 2 sacroiliac subluxation with S.O.T. blocks , while percussing the sacroiliac joints.

STEP 4

Still supine, we cleared out lumbar discs L4 and L5 on the left, and also found some thoracic discs on the left side, which were corrected with the Adjustor on the anterior of the body. Again the laser was used on all these points, backing me up through the adjustment process.

STEP 5

This was the home run....Mr. N.F.L. was still kind of groaning, so I knew there was something missing. I muscle tested for a dropped kidney, which I stroked downward on the kidney. They tested weak bilaterally. Patient supine, I percussed just above the ASIS with an inferior to superior line of drive with the intent to lift the kidney upward. While doing this my assistant was lasering at the top of the skull to balance the cranium. Within 15 seconds there was a major softening of the tissues around the kidney and rib cage.

All of this work took about 10 minutes, which is actually a long office visit in my office. Mr. N.F. L. left the office, according to the staff up front, in amazement, and they think with a tear in his eyes. The gym owner called me an hour later saying that Mr. N.F.L called him from his cell phone, screaming "I'm Healed, I'm Healed!!!"

The funny thing is I expect this to happen on every patient when we use Dr. Brimhall's protocols. It's just a lot more fun when it happens to my all time favorite football hero growing up in Philly...

This is an exciting and fulfilling case where we can get such a WOW in diagnosis, treatment and results. We thank Dr Jesse for this case history and welcome yours.

It is important that we give these patients after injury Nutri-West's Total Joint Repair, Total Mitochondria (if it tests), Total Inflamm and in this case Core Level Kidney. Also test for any hidden infections and support with Virx, Multimune, Total Yeast etc.

Don't Miss Out!!!

A complete Six Step Protocol always includes detoxification to rid the body of toxins released during treatment.
