When Children Don't Respond To Treatment As Expected

Dr Brett asked me to take a look at a child with severe allergies that was slow to respond. When I looked at her and the mother sitting there together, it looked like there was an energetic umbilical chord still attached. I got the impression that the mother still had unfinished business with her mother as well.

John Bradshaw has written many books and has been on PBS talking of family systems. The first book I read of his was Bradshaw On The Family. It is a very good book and very revealing. He has one more recently written called Family Secrets that talks of unfinished business within the family system that affects family member's generation after generation until processed.

Many researchers in energy medicine and quantum physics state the entire world is made up of energy. This includes all solids, liquids, gases and yes, even our thoughts and actions. We were taught in sixth grade science class that matter can neither be created or destroyed, it just can change states. Einstein says E=MC2. That is energy is mass times 186,000 x 186,000. So matter is energy or light going billions of miles per second.

What does this have to do with the young patient? **We can not ignore emotions and family systems** if we are going to help complicated cases. We have emotional needs, as well as nutritional and structural concerns. **They all go together and we need to help the patients we treat in all of the six steps**.

The Mother and Daughter were treated with couple's integration. To take it to the next level, it would be extremely helpful to integrate the mother with her mother and the daughter. It is also necessary to have patients read books like Bradshaw's, Karol Truman's, Louise Hay's, and our book, Solving The Health Puzzle. Our programming leads to our thoughts, which lead to our

actions, which lead to our results for pleasure or pain.

We must bring up on display the problems of the past to be able to highlight them like we do on a computer and erase the old defeating or limiting beliefs to allow the body-mind to heal. We do this using the five factors of central integration. So we use the colored glasses for the eyes, the tuning forks for the ears hearing and vibration. We use the Adjustor and the Percussor to treat the spine and spindle cells of the muscles. We use the Erchonia Laser to speak to the body in coherent light energy to remember the new corrected programming. Then to use the foot bath will help the detoxification process. Please review the Couple's Integration section in the seminar manual if you need a brush-up on the technique.

The nutrition scan is very important to see which organs need Nutri-West nutritional support at this time to enable long-term correction. The nutrition helps to bring the patients back to balance each time they are taken. The nutrition furnishes macronutrients and energetic balance.

To balance couples or families with all five factors changes their relationship usually immediately and long term. We have seen children's severe conditions make almost immediate improvement. Bradshaw relates how children will unconsciously get conditions and diseases to try to fix a family system, even to the death.

A NOTE FROM DR. BRIMHALL

This is an unusual Puzzle Piece this week, I admit. If you have not been to a seminar or read our book, you may think I have spoken nonsense. I assure you many miracles are possible by utilizing all six steps to allow balance in individuals and families.

We look forward to seeing you soon at one of our many seminars around the country. We teach beginning, intermediate and advanced treatment at almost all three-day seminars. We are teaching Advanced Laser, including the Violet/Red Laser protocol at each seminar.

Health, Wealth and Much Prosperity to You and Yours,
