They're Raving About Certification!

The following is some feedback from the "Brimhall Class of August 2006."

"Everything was great. The instructors were attentive and insightful, easy to be with and answered all my questions. They helped me fill the gaps in my skills. This seminar greatly exceeded my expectations."

"The most valuable thing about Certification was overcoming some of my own limiting beliefs … especially learning to trust myself."

"More than I expected … exactly what I needed! I know this is the beginning of a wonderful journey! I've finally found what I have been looking to become a part of. … clinical excellence with fantastic reproducible results."

"All I knew coming into Certification was that I would gain rights to the logo and better technique proficiency. I gained SO much more. The camaraderie and feeling of family was absolutely wonderful. I'm chomping at the bit to get back on Monday!"

"The most valuable concept I will take home is …"the ability to love without being consumed, and the confidence I will have to make Miracles Daily."

"The small ratio of instructors to students, one-on-one approach, everyone is truly out for everybody's success to help others."

"Thank you for changing my life! You've kept my drive alive & fresh!"

"This was a totally inspired seminar! It was much more organized than previous seminars."

My favorite parts of the seminar were: "Cranial work with Dr. Jeff Maitland. SO cool!!! I wish we could have spent more time with him. It was great to be with all the wonderful people I met. It's great to be part of something so BIG!"

"I am now ready to take on the world!"

"My favorite part was the individual attention I received in the break-out sessions."

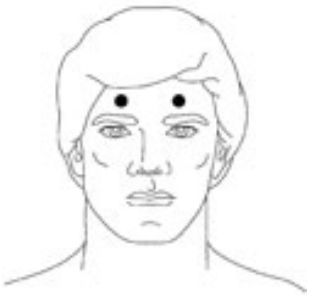
"I was really stimulated the whole time. I am now confident in my use of the Brimhall method."

"I would like you to extend the seminar to a whole week. So much contents … so little time."

"WOW! Fabulous information from many perspectives."

"Very organized. Great host & facility."

"This seminar greatly over-exceeded my expectations."



"The 5-minute phobia cure really seems to help with any fears I might have. I truly believe in what I am doing to help the patients. I know it is worth it and it works!"

"The instructors were great with helping us through! Thanks!"

"I realize that being Brimhall Certified is not an end but just the beginning. I need to continue my study and am excited to help out at future seminars."

I enjoyed "The Secret video and the energy it brought to the rest of the week. Dr. Seth's speech on Secrets of the Millionaire Mind – WOW! Dr. John was incredible, as usual. Thanks for all your knowledge, energy, and love."

My favorite part was Dr. John's exercise in "guided imagery. The whole week was an A+"

"You delivered everything you promised … and more! The environment was supportive and nurturing. I loved meeting everyone who participated. This was an absolutely wonderful experience. I never felt tired or overloaded. I felt happy, exhilarated, joyful. My view on life, in general, has changed. I feel empowered! I love being part of this program!"

"I can't wait for Monday morning at my practice!"

Certification "over-exceeded my greatest expectations. I liked splitting into small groups for more individual attention. Dr. Maitland was fantastic … but then everyone was!"

The most valuable tool, technique, or concept I will take home is: "There are NO limits! I also need to use my CA's more – let them go and run with the treatment of patients with the tools they know."

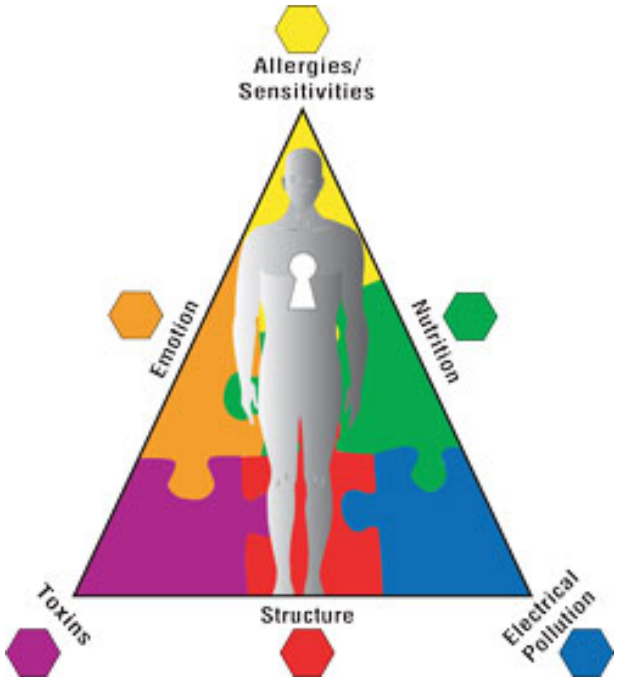
"Everything was a 37 on a 10-point scale!"

"I now have all of the tools, so now it's just up to me to put it all together."

"You treated me like royalty … from lunch, to the tour of Erchonia, to the party at the Brimhall's home. (Thank you, Dr. & Mrs. Brimhall!) Super job overall. Thank your for your time and effort Doc! I always read your e-mails and have a special file for them. Don't stop … PLEASE!"

"This was a very organized, well-paced program which met my expectations perfectly."

"…the clarity and putting it all together will definitely benefit me in my practice. This was a very valuable experience. Now I have all the tools/knowledge to begin building a wellness-based practice."



Certification "was life-changing. It helped motivate me to get out of my comfort zone. I am starting to think more like a multi-millionaire and eliminate self-doubt, fears, and anxiety."

"It's been great to meet the Doctors. I feel connected to a brain trust that I can tap into at any time and all their experience is at my service. There is none whom we cannot help!"

"Could we please do this every month?"

"This seminar really over-met my expectations. I learned so much about myself and my goals for the future …so much so that I just may go back to school and become a Dr. That way I can practice Brimhall Wellness protocols on my own!"

"Thank you, Dr. Brimhall, for taking your time to help me help others!"

"This seminar is the BEST EVER!! Very well done. Thank you very much. I enjoyed it."

"Dr. John just keeps getting better and better at helping me move to the next level in my life's journey. Thanks for being such a great mentor, Doc. The Brimhall Team/Family is the best with a true love to help others succeed. God bless!"

"This seminar exceeded my expectations by helping me to examine myself and learn more about myself. I learned to be more positive and that I am the "author" of my own book, that I have to take control if I want things to happen for myself. Every part of Certification was truly important to me."

"I learned a lot more lasering techniques than I ever have before."

"I put this off for a year because I knew there were emotional issues in my life that were difficult for me to address. I am grateful for the resolutions of those issues and I look forward to what is to come."

Certification was "fabulous. It was everything I had hoped for … and more!"

The most valuable thing I will take away from Certification is to "know that I know. I will be able to fully implement all of the 6-Steps 100% into my office on Monday morning!"

This seminar was a "10 Plus! Incredibly motivation to study and work on clinically and abandon old ways of thinking and approaching $, practice, success, etc. Immersion is better than weekend seminars!"

Most valuable thing to take home: "...seeing the Erchonia production center & Lance Armstrong memorabilia! Incredible."
